TEGASA **50** 1965 2015
ANNIVERSARY

Providing High Quality
Animal Nutrition

Since starting out as local business in 1965, **TEGASA** has gone from strength to strength and evolved into a company with a clear and determined international vocation.

Having an officially recognized laboratory with the latest analytical techniques at the service of nutrition **TEGASA** has allowed to design products and services with the highest technology, being the real driving force behind its growth and prestige.

TEGASA 's technical department specializes in the innovation and development of new animal nutrition technologies. All **TEGASA** products are designed according to established quality requirements, thoroughly tested and accompanied by detailed advice and directions of use.

TEGASA is involved in a constant total quality process, complying with strict quality standards applied to manufacturing process and services, respecting the current legislation, thanks the ISO Certification obtained in 1995.
